*Dear Participant!*

*On behalf of the Organizing Committee we welcome You in 5<sup>th</sup> Renal Eastern Europe Nephrology Academy REENA 2010 from 3<sup>rd</sup> to 6<sup>th</sup> September and incorporated CME course from ERA-EDTA and ISN/COMGAN, which will be held at 4<sup>th</sup> of September. This year our event will take place in the Baltic Beach Hotel on the bank of the Riga bay in Jurmala (Latvia).*

*REENA is an annual course organized for nephrologists and specialists of general practice from Ukraine, from CIS and Eastern Europe countries. The main aim of REENA is to improve knowledge on kidney and satellite diseases, dialysis and transplantation in an area that is most needed by practical nephrologists in present time. Traditionally educative lectures on REENA are presented by popular and well-known speakers from ERA-EDTA and ISN and opinion leaders from European countries.*

*Series of lectures and panel discussions hold during the days of the Academy in master blocks, monothematic satellite symposia and summits. Several of the most actual and interesting issues in this field is debated by leading European experts.*

*We hope that a large number of delegates will join to this important event transforming it into a successful meeting of experts and physicians wishing to receive updated information in nephrology. And we hope also that the 5<sup>th</sup> REENA in connection with the rest in one of beautiful resorts of Europe will become a memorable event like the previous ones.*
